

KMS CO.,LTD

Established in 1987, KMS CO.,LTD. has been grown as a proccessional manufacturer of screws for electronic component assembly. We do our best for even a simple part and component making as we believe that what we do is for the nation and the greater good for many. With our open mind and diligent spirit, we will provide customers with highest quality products and utmost satisfaction and thus become the best company in the field.

MICRO SCREW

General term for all types of small/micro screws used in assembling of optical instrument and small IT devices (digital camera, mobile phone, MP3 player etc). Based on our 20 year's extensive experience and skills in precise screw making, we can meet any requirements of customers to their satisfaction.

Size : M1.2~M2.6
Material : SWRCH10. 18A
Post-processing : Ni-P, Zn-P

MACHINE SCREW

Screws used for electronics, home appliances, electronic image devices, and other small parts assembly. We manufacture and supply many different sizes of screws, from M1.4~M8, in accordance with customized specifications.

Size : M1.4~M8
Material : SWRCH10. 18A
Post-processing : Ni-P, Zn-P, Cr-P

TAPPING, TAPTITE SCREW

It does not require internal screws to install on plastics or iron plate. Taptite screws have excellent joint locking, making themselves suitable for mass production parts for home appliances and electronic image devices.

Size : M1.4~M8
Material : SWRCH10. 18A
Post-processing : Ni-P, Zn-P, Cr-P
